GENERAL MEETING
MEETING #162
Tuesday, October 7, 2025
7 PM

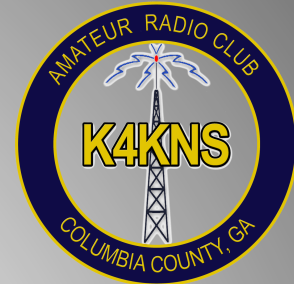

INVOCATION

MEETING AGENDA

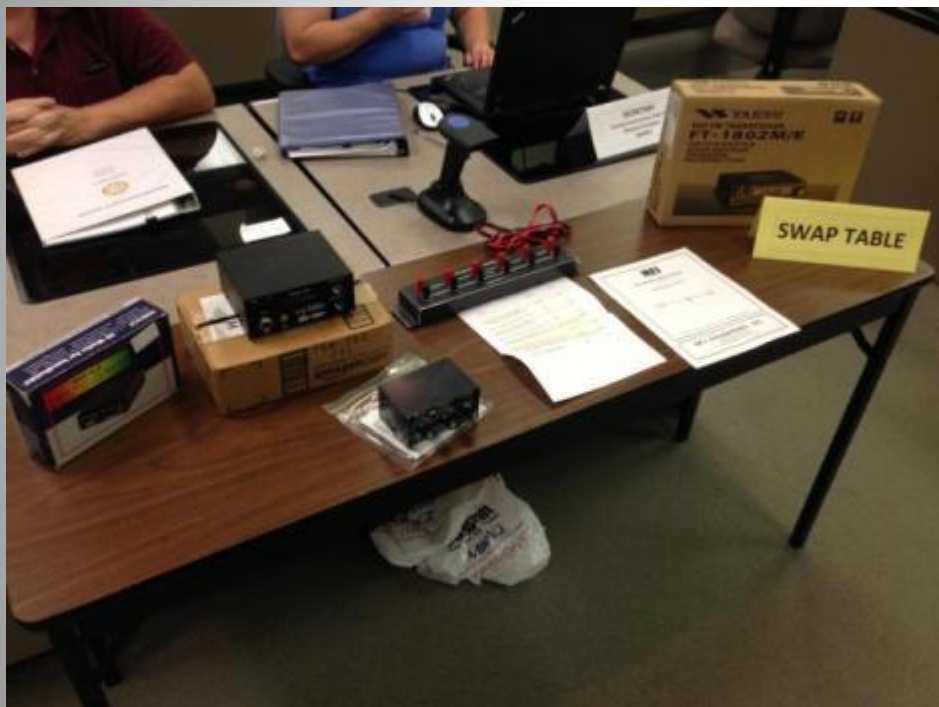

- Welcome & Introductions
- Presentation: Hamclock – Dan Marshall (N4MI)
- Upcoming Events
- Membership Applications
- Monthly Reports
- Business Items
- Committee Updates
- Amateur Radio Club of Augusta
- North Augusta Belvedere Radio Club
- East Central/Columbia County ARES
- AmRRON
- Review Motions and Assignments
- Adjourn

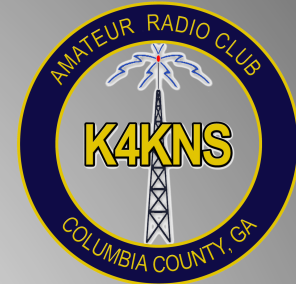

SWAP TABLE

Welcome and Introductions

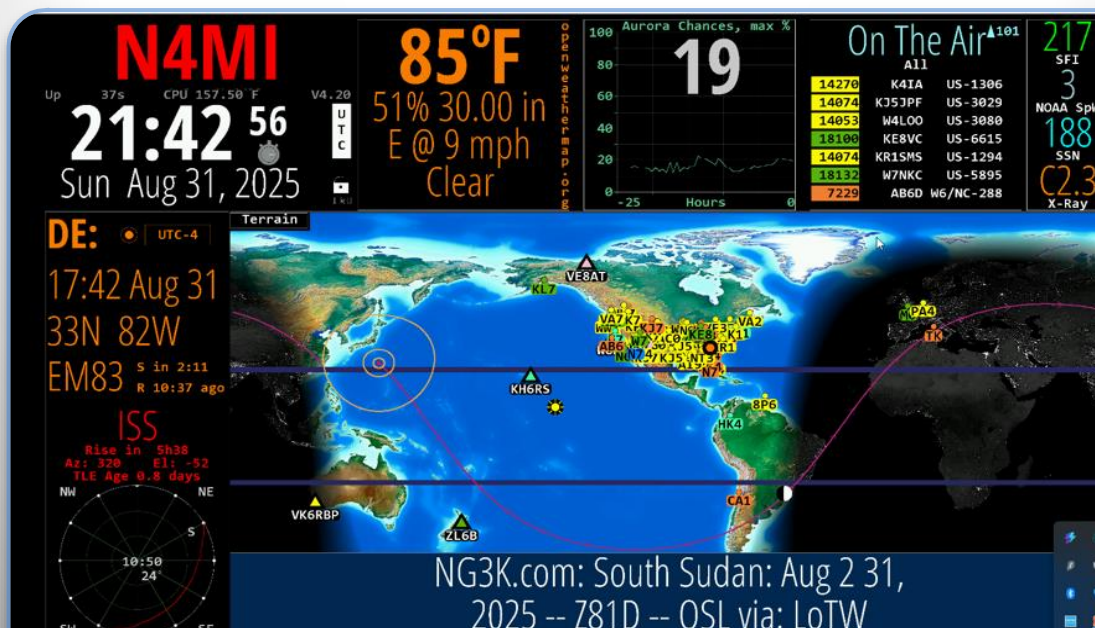

- Please Sign In on the Attendance Log
 - Please PRINT Legibly
- Introductions
 - QUICKLY Go Around the Room and Provide Your Name and Call Sign

Presentation

Hamclock

Dan Marshall (N4MI)

HAMCLOCK

MORE THAN JUST A CLOCK

Dan Marshall

N4MI

What is HamClock?

- An open-source software project
- Runs on a Raspberry Pi (or other SBC, such as Inovato Quadra)
- Designed specifically for Ham Radio operators
- A "station information dashboard"

Visualizing the world of Ham Radio

- A world map with several projections and overlays
- Grayline visualization
- Great Circle path calculator
- Customizable data panes with useful information

The "DIY" Aspect

- You build it yourself, giving you flexibility in hardware
- It's cost-effective compared to other commercial displays
- The satisfaction of a building a fun, useful electronics project

Customization

- Highly configurable through a web interface
- Choose what information is displayed and where
- Regular software updates with new features
- The developer and user community is active and supportive

What Can it Do??

Accurate Timekeeping

- Displays UTC prominently for logging and contest operations
- Shows local time and sunrise/sunset times
- Automatic time synchronization via the internet (NTP)

DX and Propagation Information

- Live propagation data: Sunspots, K-index, Solar Flux Index, A-index
- Grayline map
- Moon phase and position
- Real-time spots from RBN, DX Cluster, WSPRnet

Weather and Space Weather

- Local and DX weather
- Satellite tracking: shows pass times and paths for sats
- Space weather (geomagnetic storms, etc.)

HamClock vs. GeoChron

Feature	HamClock	GeoChron
Cost	Low-cost hardware + free software	Significant hardware cost + annual subscription for ham overlays
Hardware	DIY project (Raspberry Pi, display) or low-cost hardware	Plug-and-play computer for a 4K TV
Features	Essential ham-specific data, maps & UTC clock	Extensive, high-resolution maps and overlays
Audience	DIY-minded operators	Operators wanting a turnkey solution

Both HamClock and Geochron require Internet access for overlays and live information panes

Getting Started with a Raspberry Pi

Hardware: Raspberry Pi, display (monitor, TV, touchscreen), MicroSD card, power supply, HDMI cable, mouse/keyboard

- Ensure you have the correct peripherals and cables for your Pi version!
- A Raspberry Pi Zero 2W will work, but a Raspberry Pi 4 will be more responsive
- Read the User Guide on the HamClock web page before beginning!

Process:

- Download Raspberry Pi image and flash it to a SD card
- Assemble the hardware and ensure the Pi is running correctly
- Open a terminal, and follow the instructions located under the “desktop” tab here: <https://clearskyinstitute.com/ham/HamClock/>

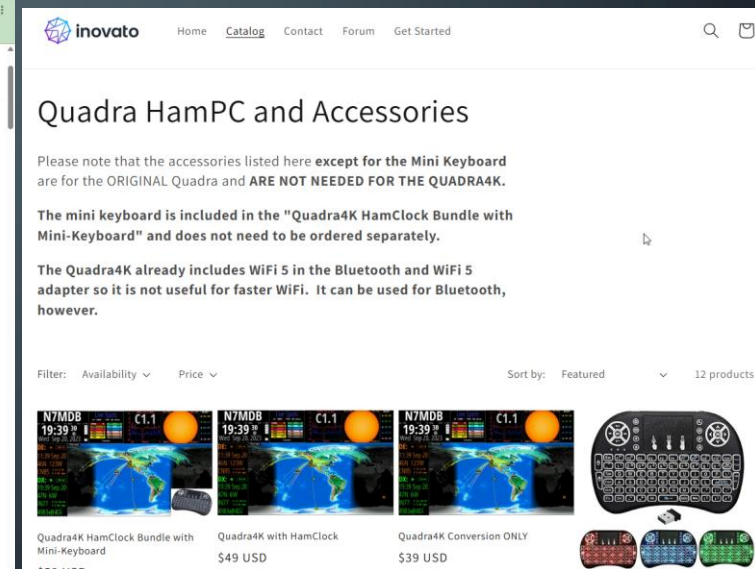

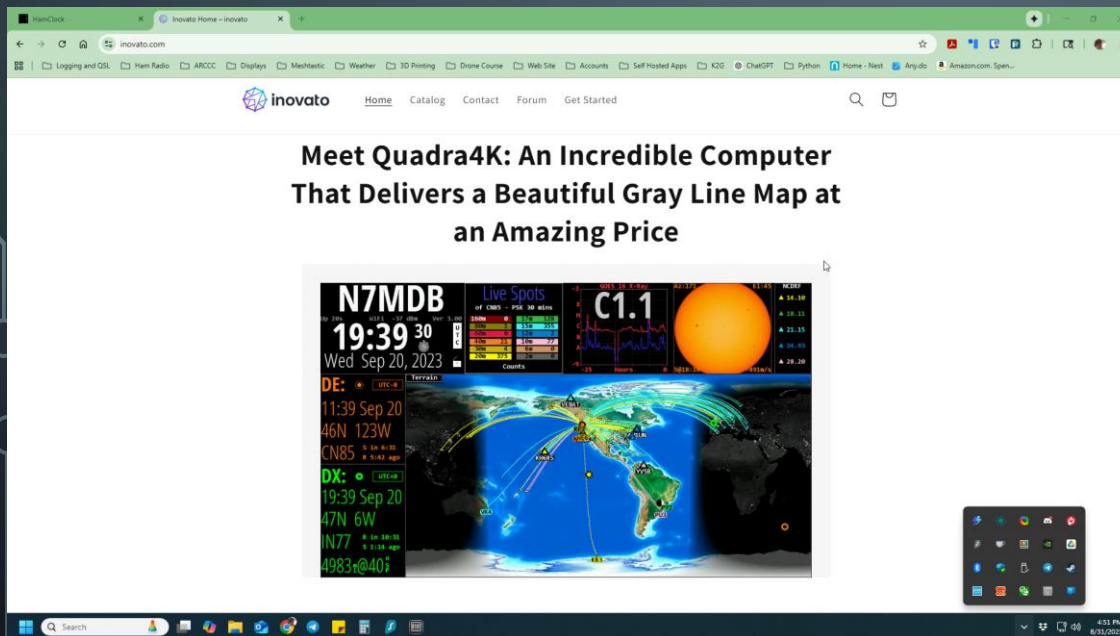

It's that simple but read the FAQs and User Guide. There is a lot of customization available!

In addition to HamClock, you can use the Raspberry Pi to run other ham radio applications.

The (Slightly) Easier Way!

Inovato Quadra 4K

Mostly "plug and play" but requires some initial configuration

“Turnkey” [Inovato Quadra 4K](#) available for \$50-60

Software and documentation to “roll your own” on a Raspberry Pi at [ClearSky Institute](#)

This is a live read-only HamClock running in demo mode on my web server.

HamClock is a kiosk-style application that provides real time space weather, radio propagation models, operating events and other information particularly useful to the radio amateur. HamClock was introduced in my October 2017 [QST article](#) and continues to be maintained and expanded.

For quick start on Raspberry Pi or other UNIX-like operating systems see the Desktop tab below. The User Guide tab provides detailed operating instructions. Explore the additional tabs for further supporting information.

[Z3, Elwood Downey, WB0EW](#)

News highlights: See the complete version history in the Download tab and details in the User Guide.

- view DXpeditions on map and watch for DX Cluster spots
- add near-realtime Cloud map style
- add support for saving and restoring multiple configurations

Now available as a **turn-key system** from:

- [Veritum Research](#) rebranded as HFClock, direct or in Europe from [Lutz Electronics](#)
- [Inovato Quadra4k](#)

QST Download **FAQ** User Contrib ESP8266 Notes Credits User Guide Desktop

Answers to Frequently Asked Questions:

1. How do I build the ESP8266 software?
2. How do I build the Desktop software?
3. How do I uninstall HamClock?
4. I'm new to Raspberry Pi -- how do I get started?
5. What can I do if a self-update reports FAIL with a message about SSL certificate?

The image features a dark blue gradient background with faint, stylized white circuit lines in the corners. These lines consist of vertical and horizontal segments connected by small circles, resembling a printed circuit board (PCB) layout. The lines are located in the top-left, top-right, bottom-left, and bottom-right corners, framing the central text.

HAMSHACK HOTLINE

- Hamshack Hotline – Sunset as of 08-29-2025

Hamshack Hotline Public Announcement – A Fond Farewell

To our valued Hamshack Hotline community,

It is with a heavy heart that we announce the sunset of the Hamshack Hotline project, effective **August 29th, 2025**.

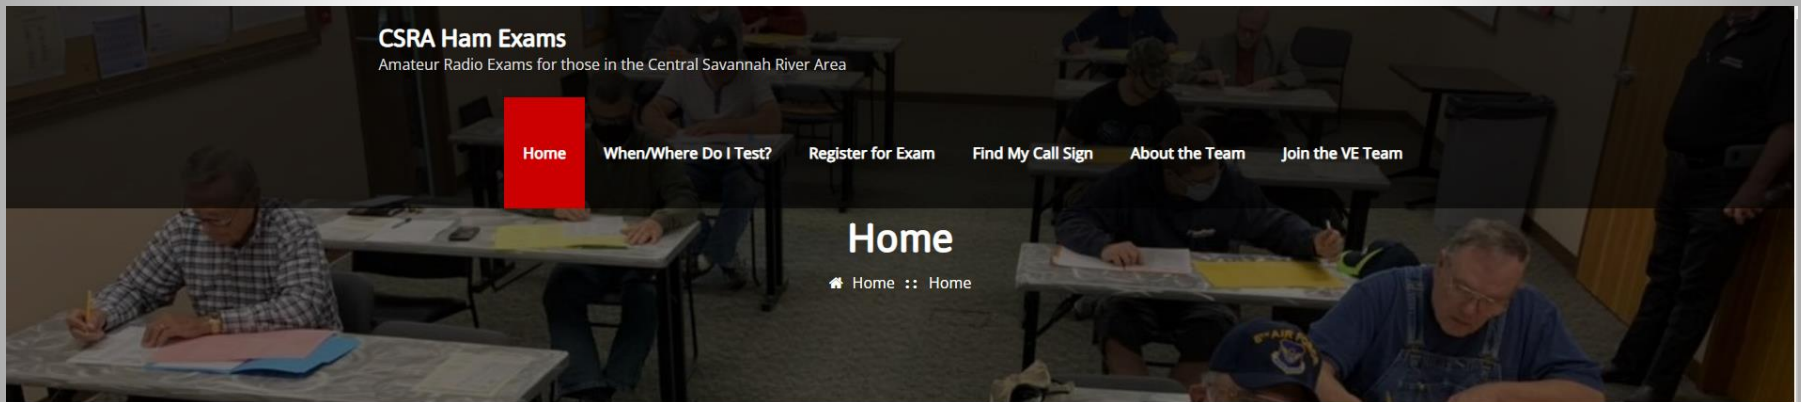

What began in 2018 as a simple idea in the humble closet of K1WIZ quickly grew into something none of us could have imagined—an expansive, global communications network built by and for amateur radio operators. From those early beginnings, Hamshack Hotline evolved into a robust VoIP system supported by multiple servers around the world, with over **7,000 interconnections** at its peak.

This incredible journey was made possible by the **generosity of donors worldwide** and the tireless

REVIEW

- Review motions and assignments
- We would welcome your presentations and ideas for presentations.
- Is there a motion to adjourn the meeting?

THANK YOU!!!
